Intestinal Soothing Nutritional Liquid

A fiber and prebiotic liquid for daily digestive support and regular bowel movements.

Digestive comfort & regularity

Reference product artwork

[View product online](#)

Confirm the full ingredient declaration, active levels and daily serving for the selected formula. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Pumpkin powder, psyllium husk, FOS
Supporting blend	Chicken powder, whole milk powder, vitamins A and B1, riboflavin
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Calming & Relaxation Nutritional Liquid

A liquid supplement with L-theanine and botanical extracts for everyday calming support.

Emotional balance

Reference product artwork

[View product online](#)

Confirm the full ingredient declaration, active levels and daily serving for the selected formula. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	L-theanine, lemon balm, chamomile
Supporting blend	Vitamins A and B1, riboflavin, chicken powder, whole milk powder
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Probiotic Oral Care Nutritional Liquid

An oral care liquid designed to complement a regular dental hygiene routine.

Oral hygiene & fresh breath

Reference product artwork

[View product online](#)

Confirm probiotic strains and viable count. The manufacturer reference specifies FOS but does not identify live strains. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Probiotic / prebiotic blend, botanical extracts
Supporting blend	FOS, lysozyme, vitamins A and B1, riboflavin
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

L-Lysine Nutritional Liquid

A liquid format combining L-lysine with taurine and vitamins for supplemental nutrition.

Amino acid nutrition

Reference product artwork

[View product online](#)

Confirm vitamin E and the botanical blend against the approved formula. No antiviral performance claim is made. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	L-lysine, taurine
Supporting blend	Vitamin C, vitamin E and selected botanical ingredients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Herbal Respiratory Support Liquid

A botanical liquid with amino acids and vitamins for a respiratory wellness product range.

Respiratory & throat wellness

Reference product artwork

[View product online](#)

For nutritional support. Persistent coughing or breathing concerns require veterinary assessment. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Licorice, honeysuckle, balloon flower root, L-lysine
Supporting blend	Taurine, vitamins B1, B2, B6 and E
Reference taurine	0.1% in manufacturer reference
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Comprehensive Nutritional Liquid

A multnutrient liquid to complement the daily diet of dogs and cats.

Daily nutritional supplementation

Reference product artwork

[View product online](#)

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Vitamins, amino acids, minerals and trace elements
Supporting blend	Astragalus polysaccharides in manufacturer reference
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Confirm the full ingredient declaration, active levels and daily serving for the selected formula. *Reference net quantity. Final pack and artwork may vary.

Recovery Nutritional Liquid

A collagen and fish oil formula for a veterinarian-directed recovery feeding plan.

Nutrition during recovery

[View product online](#)

The website lists probiotics and the manufacturer lists prebiotics. Confirm the selected gut-support blend and calorie density. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Collagen protein, fish oil
Supporting blend	Vitamins and selected nutrients. Gut-support blend to confirm
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Iron & Nutritional Liquid

An iron supplement with folate and vitamin B12 for targeted nutritional support.

Iron & blood formation support

Reference product artwork

[View product online](#)

Confirm iron form, iron content and botanical composition before selecting a serving size. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Iron, folic acid, vitamin B12
Supporting blend	Astragalus, angelica and selected botanicals
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Immune Support Nutritional Liquid

A colostrum-based formula with botanical ingredients and vitamins for nutritional support.

Immune & digestive wellness

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Colostrum, immunoglobulins, prebiotics
Supporting blend	Astragalus, codonopsis, dandelion, Houttuynia cordata, vitamins A and E
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Reference product artwork

[View product online](#)

Confirm the full ingredient declaration, active levels and daily serving for the selected formula. *Reference net quantity. Final pack and artwork may vary.

Antioxidant & Immune Support Liquid

A botanical and vitamin formula for an antioxidant nutrition range.

Antioxidant nutrition

Reference product artwork

[View product online](#)

Published formulas differ for taurine, selenium and the gut-support blend. Confirm the final composition. No cancer-treatment claim is made. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Astragalus, angelica, dandelion
Supporting blend	Vitamins A and E. Additional nutrient blend to confirm
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Urinary Tract & Bladder Support Liquid

A cranberry and botanical liquid for a urinary wellness supplement range.

Urinary wellness

Reference product artwork

[View product online](#)

The manufacturer lists plantain and Alisma. The website lists corn silk. Confirm the botanical blend. This is not a stone-removal treatment. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Cranberry, dandelion
Supporting blend	B vitamins and selected botanical ingredients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Digestive & Intestinal Support Liquid

A montmorillonite-based liquid for a digestive care product range.

Digestive & stool support

Reference product artwork

[View product online](#)

Manufacturer reference: pomegranate peel. Website reference: Lithospermum extract. Final botanical selection requires confirmation. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Montmorillonite
Supporting blend	Botanical ingredient to confirm with final formula
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Calcium Nutritional Liquid

A liquid supplement combining milk-derived calcium with phosphorus and vitamin D3.

Bone & dental nutrition

Reference product artwork

[View product online](#)

Confirm calcium and phosphorus levels, their ratio and the recommended daily serving. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Liquid
Reference pack	60 mL / approx. 2.03 US fl oz*
Key ingredients	Milk-derived calcium and milk minerals
Supporting blend	Phosphorus, vitamin D3
Feeding method	Direct feeding or mixed with food
Packaging	Bottle. Custom packaging on request
Shelf life	Confirm with approved specification

Stress & Adaptation Support Liquid

A liquid nutrition option for travel, relocation and changes in the daily routine.

Support during changes in routine

Reference product artwork

[View product online](#)

Final formula, active levels, serving directions and packaging follow the approved specification.

Goat Milk Nutritional Powder

A goat milk powder supplement for mixing with water or food.

Daily nutrition & growth support

Reference product artwork

[View product online](#)

Confirm milk-protein composition, lactose level and reconstitution ratio. This catalog does not establish a complete milk-replacer claim. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Powder
Reference pack	200 g / approx. 7.05 oz*
Key ingredients	Goat milk powder
Supporting blend	Protein, calcium, vitamins A, D and E, taurine and selected nutrients
Feeding method	Reconstitute with water or mix with food
Packaging	Sachet, jar or can options to confirm
Shelf life	Confirm with approved specification

Oyster Hairball & Coat Care Powder

An oyster-based powder with flaxseed for a daily coat-care supplement range.

Skin, coat & hairball care

Reference product artwork

[View product online](#)

Confirm the final marine ingredient blend and omega-3 content. Ingredient percentages are formula-specific. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Cats
Format	Powder
Reference pack	200 g / approx. 7.05 oz*
Key ingredients	Oyster powder, flaxseed powder
Supporting blend	Marine minerals, lecithin and marine protein ingredients
Feeding method	Mixed with food
Packaging	Sachet, jar or can options to confirm
Shelf life	Confirm with approved specification

Probiotic Nutritional Powder

A multistrain probiotic powder for mixing into the daily feeding routine.

Gut microbiome & digestion

Reference product artwork

[View product online](#)

Manufacturer reference claim, not a verified shelf-life guarantee. Confirm strains, test method and CFU at end of shelf life. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Powder
Reference pack	200 g / approx. 7.05 oz*
Key ingredients	Multistrain probiotics
Supporting blend	Prebiotics, dietary fiber and nutritional carriers
Reference potency	10 billion CFU/g*
Feeding method	Mixed with food or water
Packaging	Sachet, jar or can options to confirm
Shelf life	Confirm with approved specification

Pumpkin Fiber Nutritional Powder

A pumpkin-based powder that adds dietary fiber to a supplemental feeding routine.

Fiber & stool management

Reference product artwork

[View product online](#)

Manufacturer describes freeze-dried pumpkin. Confirm drying method, fiber content and the final nutrient profile. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Powder
Reference pack	200 g / approx. 7.05 oz*
Key ingredients	Pumpkin powder
Supporting blend	Dietary fiber, beta-carotene, vitamins A and C
Feeding method	Mixed with food
Packaging	Sachet, jar or can options to confirm
Shelf life	Confirm with approved specification

Cat L-Lysine Nutritional Powder

A powdered L-lysine supplement with taurine and vitamin C, developed for cats.

Amino acid & daily nutrition

Reference product artwork

[View product online](#)

Confirm L-lysine content per gram and the complete botanical blend. No antiviral performance claim is made. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Cats
Format	Powder
Reference pack	200 g / approx. 7.05 oz*
Key ingredients	L-lysine, taurine, vitamin C
Supporting blend	Selected botanical extracts and nutritional components
Feeding method	Mixed with food
Packaging	Sachet, jar or can options to confirm
Shelf life	Confirm with approved specification

Egg-Based Skin & Coat Powder

An egg-based powder with lecithin and fatty acids for a coat-care product range.

Skin & coat nutrition

Reference product artwork

[View product online](#)

Egg source differs: the website shows egg yolk, while the manufacturer describes softshell turtle egg. Select and confirm one formula before ordering. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Powder
Reference pack	200 g / approx. 7.05 oz*
Key ingredients	Egg ingredient, lecithin
Supporting blend	Omega-3, omega-6, DHA, EPA, dietary fiber and selected nutrients
Feeding method	Mixed with food
Packaging	Sachet, jar or can options to confirm
Shelf life	Confirm with approved specification

Nutritional pastes

5 product references. Compare nutritional focus and review each detailed product page.

Ref.	Product	Nutritional focus	Page
N01	Hairball & Fur Support Paste	Hairball & coat care	26
N02	Calcium Nutritional Paste	Bone, dental & joint nutrition	27
N03	Postpartum & Lactation Paste	Maternal nutritional support	28
N04	Multivitamin Nutritional Paste	Daily nutrition & vitality	29
N05	Cat Immune & Respiratory Support Paste	Feline nutritional support	30

Final formula, active levels, serving directions and packaging follow the approved specification.

Hairball & Fur Support Paste

A malt-based oral paste with fish oil for supplemental hairball and coat care.

Hairball & coat care

Reference product artwork

[View product online](#)

Confirm lubricant, egg-derived ingredients and the full formula. For oral feeding according to the approved label.

Suitable for	Dogs & cats
Format	Oral nutritional paste
Reference pack	Net weight to confirm
Key ingredients	Malt syrup, fish oil
Supporting blend	Lecithin, vitamin E and selected nutritional ingredients
Feeding method	Direct feeding or mixed with food
Packaging	Tube. Custom packaging on request
Shelf life	Confirm with approved specification

Calcium Nutritional Paste

A calcium and phosphorus paste with vitamin D3 and joint nutrients.

Bone, dental & joint nutrition

Suitable for	Dogs & cats
Format	Oral nutritional paste
Reference pack	Net weight to confirm
Key ingredients	Calcium, phosphorus, vitamin D3
Supporting blend	Chondroitin sulfate and selected joint nutrients
Feeding method	Direct feeding or mixed with food
Packaging	Tube. Custom packaging on request
Shelf life	Confirm with approved specification

Reference product artwork

[View product online](#)

Confirm mineral concentrations, calcium-to-phosphorus ratio and the joint nutrient blend.

Postpartum & Lactation Paste

A nutritional paste for postpartum and lactating dogs and cats.

Maternal nutritional support

Reference product artwork

[View product online](#)

Published botanical and milk ingredients differ. Confirm the complete formula and serving plan with the approved label and veterinarian.

Suitable for	Postpartum and lactating dogs & cats
Format	Oral nutritional paste
Reference pack	Net weight to confirm
Key ingredients	Astragalus, codonopsis and selected botanicals
Supporting blend	Milk-derived ingredients and selected nutrients
Feeding method	Direct feeding or mixed with food
Packaging	Tube. Custom packaging on request
Shelf life	Confirm with approved specification

Multivitamin Nutritional Paste

A multivitamin paste that complements a complete daily diet.

Daily nutrition & vitality

Reference product artwork

[View product online](#)

Confirm the full ingredient declaration, active levels and daily serving for the selected formula.

Suitable for	Dogs & cats
Format	Oral nutritional paste
Reference pack	Net weight to confirm
Key ingredients	Vitamins A, D3, E, K and B complex
Supporting blend	Folic acid, niacin, amino acids and selected botanical extracts
Feeding method	Direct feeding or mixed with food
Packaging	Tube. Custom packaging on request
Shelf life	Confirm with approved specification

Cat Immune & Respiratory Support Paste

A cat-specific paste with L-lysine, taurine and vitamins for supplemental nutrition.

Feline nutritional support

Reference product artwork

[View product online](#)

Confirm the botanical blend and amino acid concentrations. No feline herpesvirus treatment or prevention claim is made.

Suitable for	Cats
Format	Oral nutritional paste
Reference pack	Net weight to confirm
Key ingredients	L-lysine, taurine, vitamins C, A and E
Supporting blend	Selected botanical ingredients and prebiotics
Feeding method	Direct feeding or mixed with food
Packaging	Tube. Custom packaging on request
Shelf life	Confirm with approved specification

Tablets

10 product references. Compare nutritional focus and review each detailed product page.

Final formula, active levels, serving directions and packaging follow the approved specification.

Curcumin Joint Support Tablets

Turmeric-based tablets with joint nutrients for a daily mobility supplement range.

Joint, mobility & antioxidant nutrition

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Turmeric extract / curcumin
Supporting blend	Glucosamine, MSM, chondroitin and dietary fiber
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Reference product artwork

[View product online](#)

Confirm curcuminoid assay and levels of each joint ingredient in the selected formula. *Reference net quantity. Final pack and artwork may vary.

Fruit & Vegetable Nutritional Tablets

Tablets combining fruit and vegetable ingredients with fiber for daily supplementation.

Plant nutrients & daily wellness

Reference product artwork

[View product online](#)

Manufacturer examples include pumpkin, broccoli, blueberry and carrot. Confirm the final blend. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Fruit and vegetable extracts
Supporting blend	Dietary fiber, vitamins and selected plant nutrients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Oral Hygiene Tablets

Oral-care tablets for use alongside a regular dental hygiene routine.

Oral care & fresh breath

Reference product artwork

[View product online](#)

The website lists probiotics. Manufacturer wording emphasizes prebiotics. Confirm the strains, CFU and cleaning ingredients. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Plant extracts and a formula-specific gut-support blend
Supporting blend	Selected cleaning ingredients, vitamins and nutritional components
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Chondroitin Joint Support Tablets

A chondroitin formula with glucosamine and MSM for a mobility supplement range.

Joint & cartilage nutrition

Reference product artwork

[View product online](#)

Confirm active content per tablet and the source of each joint ingredient. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Chondroitin sulfate, glucosamine, MSM
Supporting blend	Omega-3 sources and selected joint nutrients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Probiotic Digestive Support Tablets

Probiotic tablets with fiber and plant nutrients for daily digestive supplementation.

Gut balance & digestion

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Selected probiotic strains
Supporting blend	Prebiotics, dietary fiber and plant nutrients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Reference product artwork

[View product online](#)

Manufacturer lists Bifidobacterium animalis, Lactobacillus acidophilus and Bacillus subtilis. Confirm strain IDs and CFU per tablet. *Reference net quantity. Final pack and artwork may vary.

High Calcium Nutritional Tablets

Calcium tablets with vitamin D3 and CPP for a targeted mineral supplement range.

Calcium & bone nutrition

Reference product artwork

[View product online](#)

Website shows tablets. Manufacturer also describes an effervescent option. Confirm format, calcium source and mineral levels. *Reference net quantity. Final pack and artwork may vary.

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Calcium ingredients, vitamin D3
Supporting blend	Casein phosphopeptides (CPP) and selected minerals
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Trace Mineral Nutritional Tablets

A trace-mineral blend with vitamins for daily nutritional supplementation.

Mineral balance

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Iron, zinc, copper, manganese, selenium and iodine
Supporting blend	Vitamins, CPP and selected nutritional ingredients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Reference product artwork

[View product online](#)

Confirm each mineral amount and the tablet format. Manufacturer also describes an effervescent option. *Reference net quantity. Final pack and artwork may vary.

Multivitamin Nutritional Tablets

A combination of vitamins, amino acids and minerals to complement daily nutrition.

Daily multinutrient support

Reference product artwork

[View product online](#)

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Multivitamin blend, amino acids, minerals
Supporting blend	Trace elements and selected nutritional components
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Confirm the full ingredient declaration, active levels and daily serving for the selected formula. *Reference net quantity. Final pack and artwork may vary.

Urinary Care Effervescent Tablets

An effervescent tablet format for a urinary wellness supplement range.

Urinary wellness & hydration routine

Reference product artwork

[View product online](#)

Suitable for	Dogs & cats
Format	Effervescent tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Plantain, dandelion in manufacturer reference
Supporting blend	Selected botanical and nutritional ingredients
Feeding method	Dissolve in water as directed on label
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Confirm dissolution volume, full dissolution time and serving instructions. Follow the selected product label. *Reference net quantity. Final pack and artwork may vary.

Immune Support Tablets

A botanical tablet option for a nutritional immune-support range.

Immune wellness

Suitable for	Dogs & cats
Format	Tablets
Reference pack	45 g / approx. 1.59 oz*
Key ingredients	Selected herbal extracts
Supporting blend	Formula-specific plant and nutritional ingredients
Feeding method	Direct feeding or mixed with food
Packaging	Bottle or tube options to confirm
Shelf life	Confirm with approved specification

Reference product artwork

[View product online](#)

Request the complete botanical identity and active levels. No parvovirus treatment or prevention claim is made. *Reference net quantity. Final pack and artwork may vary.

Soft Granules

8 product references. Compare nutritional focus and review each detailed product page.

OEM & ODM for your brand

Build a nutritional product range around your target customers, preferred format and market requirements.

01 Formula selection

Select an existing reference formula or discuss changes to ingredients, functional focus and palatability.

02 Packaging & artwork

Define net content, container format, branding and the information needed on your market label.

03 Sample review

Review appearance, handling and feeding format. Confirm the composition and quantitative specification.

04 Production & supply

Agree the order scope, quality documentation, packing requirements and delivery arrangements.

MOQ, pricing, development costs and lead time depend on the selected product and project scope.

Product specification checklist

Use the catalog for initial selection. Confirm the following details for each product before placing an order.

Specification	Details to confirm
Formula & composition	Full ingredient list, ingredient sources, active content per g or mL, and analytical specifications
Product-specific measures	Probiotic strain IDs and end-of-shelf-life CFU, botanical assays, mineral levels, or calorie content as relevant
Serving directions	Species, life stage, body-weight bands, daily amount, introduction instructions and measuring device
Pack & logistics	Net content, pieces or tablets per pack, packaging material, case count, carton dimensions and gross weight
Stability & documentation	Shelf life, storage and after-opening conditions, batch specifications and applicable test documentation
Market label	Approved product name, nutritional wording, language, ingredient declaration and destination requirements

Quantities marked * are reference packs. Photos show website artwork. Catalog summaries do not replace the final product specification or approved label.
